

SANSKAR MAURYA

PRODUCT MANAGER

New Delhi, India | +91 9654643743 | sanskarmaurya007@gmail.com | [LinkedIn](#)

SUMMARY

Product Manager with hands-on experience turning behavioural and funnel data into shipped product improvements across product, analytics, and research roles. Strong in GA4 and Mixpanel funnel analysis, SQL, KPI definition, cohort and retention analysis, A/B testing, and dashboarding. Comfortable owning the measurement layer end to end — instrumenting events, sizing the impact of fixes, and partnering with product, engineering, and design to lift conversion and retention. Drawn to high-consideration e-commerce and marketplace funnels where data directly shapes the customer journey.

SKILLS

Analytics & Data: GA4, Mixpanel, SQL (MySQL), Python (Pandas, NumPy), KPI Definition & Tracking, Funnel & User-Journey Analysis, Cohort & Retention Analysis, A/B Testing & Experimentation
BI & Visualization: Power BI, Tableau, Matplotlib, Excel / Google Sheets, Dashboard Design
Product: PRD/BRD Authoring, Feature Prioritization, Roadmap Support, Customer Feedback Loops, Competitor Research, Go-to-Market Support
Execution & Tools: Stakeholder Management, Cross-Functional Collaboration, Requirement Documentation, Workflow Automation, API Integration, Postman, Agile Delivery

PROFESSIONAL EXPERIENCE

- Associate Product Manager — Collegedunia** Dec 2025 – Present
- Analyze GA4 event data across CRM and LMS modules to map user journeys, isolate funnel drop-offs, and quantify the conversion impact of each fix before prioritization.
 - Define and track KPIs across engagement, conversion, and retention, building single-source-of-truth dashboards in Power BI, GA4, and Sheets for product and business stakeholders.
 - Run cohort and retention analyses to pinpoint where users disengage, translating findings into prioritized, data-backed product recommendations.
 - Write SQL queries against product databases to validate hypotheses and segment users for deeper behavioral analysis.
 - Automate SMS campaign workflows with Python and API integrations, removing manual steps and accelerating execution.
- Product Management Intern — Atisunya Pvt. Ltd.** Jun 2025 – Jul 2025
- Analyzed product usage data in Mixpanel and Power BI to identify customer pain points and feature gaps across AI-driven solutions.
 - Conducted market and competitor research and authored PRDs, translating usage insights into prioritized, build-ready requirements with engineering and design.
- Data Analyst — Labmentix** Jan 2025 – Mar 2025
- Built interactive dashboards in Power BI, Tableau, and Matplotlib to track business KPIs and surface critical trends.
 - Automated weekly reporting workflows and datasets, reducing manual reporting effort by 30%.
 - Delivered analysis through stakeholder presentations and reports, improving decision-making speed by 20%.
- Research Intern — Siemens** Jun 2024 – Jul 2024
- Collected, cleaned, and analyzed operational data with R&D, automation, and digitalization teams to feed the innovation pipeline.
 - Contributed to a 25% increase in process efficiency through data-driven recommendations.

KEY PROJECT

- Textify & WhatsAppify — Unified Customer Communication Platform** *(SMS & WhatsApp Automation)*
- Designed and shipped two in-house messaging products consolidating customer communication into one platform and removing reliance on third-party vendors.
 - Defined success metrics and tracked send volume, delivery, and engagement, reaching 10,000+ customers per campaign and cutting manual send time by ~70%.
 - Cut external messaging and vendor costs by ~40%, lifted engagement and response rates by ~35% versus email-only outreach, and scaled support to 500+ conversations/day with average response time down from hours to minutes.

EDUCATION

Delhi Technological University (formerly DCE) — B.Tech, CGPA 8.3/10 2022 – 2026 (Graduated)
SAM International School — Class XII 92.6%, Class X 95.6% 2020 – 2022
